Evidently, t would not back him. In, he and General Nagibed upon a common policy stead, he and General Nagib decided upon a common policy in both internal and external policies, and it became clear that none of the Arab States would be willing to come out of the cosy Middle East cul-de-sac until Egypt should be willing to lead them. This has strengthened Egypt's position in its negotiations with Britain and has combraned the fact that an effective Middle East Defence Organization must continue to depend on the outcome of the negotiations.

PPARENTLY, the British negotiators are hopeful; if ey were not, there would be its sense in going on with the gotiations. Apparently, too, it now recognized in London and application that one agreement. ## Comments on Stability Of Cabinet Coalition

The Minister probably exaggerated, in order te lend more weight to his appeal for a renewal of the United Orthodox Front, the paper says. Certainly there are other difficulties, according to the paper says. Certainly there are other difficulties, according to "Ha'areta," between Mapai and the General Zionists, both of whom have not yet quite adapted their thinking to the new situation of partnership, but mutual misunderstandings and mistrust should be overcome, in order to affeguard smooth and quiet working of the Government machinery, the paper urges.

"Haboker" (General Zionist) also says that "those Ministers" who spread rumoure about an impending break-down of the coalition, render a bad service to the national cause. But in order to save the newly schlaved unity of all classes it is not enough to deny the "tactiess" remarks of one or another minister, but the Government should systematically associate the general public with its efforts for economic rehabilitation. The misds of members of the Government should be open to all suggestions in this direction without dogmatic prejudice, the paper urges.

HAIFA, Sunday.—"Two happenings during recent years stand out as especially portentous," Mr. Monnett B. Davis, U.S. Ambassador, told the Israel-America Friendship League at Bet Harofe here tonight.
"One was the carefully prepared armed attack on the Republic of Korea, an act of wanton aggression which put to the acid test the principle of collective security.

"The other," he said, "was the recent trial in Prague. Like the attack on Korea the trial marks a significant development in the campaign for world domination. Both were deliberate, cynical and fraught with evil consequences, and both obviously developments in the unfolding of the same world-wide plan."

The one unpleasant, though perhaps unavoidable surprise in Rangoon was the appearance of the so-called Socialist delegates from Arab countries. It is a fact, unfortunately, that many parties, though remote from democratic socialism, have exploited the giamour of that ideology and the attraction of Socialist.

NO FINANCIAL LOSS ON HAIFA SILO

ordered by the Government from Bahler Bros. at Unwil, Switzerland, with the provisio that final details connected with the specific creditions of Haifa Port would be furnished within a short time. Such a condition attaching to an industrial order is general usage and is not open to any objection.

At this point, however, doubts arose as to whether the Government were not violating its agreement with Dagon Ltd.

The Government gave Message

The company went alread with its preparations, but to wards the end of 1951 the Government found that the site chosen by Dagon Ltd. was unfavourshly located and that the sile, when completed, would lead to increased difficulties with traffic in the harbour area. After close study an alternative site was selected and the company agreed to this change because it was equally to its own advantage.

Year's Delay

This change caused a delay of about twelve months. Meanwhile, the expence of unloading grain in sacka, which has so far been the only method possible in Haifa Port, had become a heavy burden on the Exchequer and a temporary solution was sought for the interim period, i.e. until the time when the sile would be ready for operation, which was not to be expected before mid-1984, according to the most favourable estimate, it was therefore decided by the Ministries of Communications and Commerce & Industry, after close consultation, to install a temporary machine for discharging grain is bulk from the holds of ships and transferring it onto waiting trains or trucks. There are two principal types of grain elevators, the one pneumatic, working by suction, the other a mechanical chain conveyor. A pneumatic grain elevators, the other a mechanical chain conveyor. A pneumatic grain elevators, the other a mechanical chain conveyor type, called S.K.T. (Schiffsketten transporteur).
